

# Senators:

## COMMIT TO CONSERVATION

Provide at least **\$5 Billion** more for **conservation** in the **2007 Farm Bill**

Working farms, ranches and forests offer the greatest potential to enhance the nation's water quality, air quality and wildlife habitat. But conservation programs in the 2007 Farm Bill are woefully under-funded—two out of three farmers willing to take action to improve the environment are turned down due to lack of funds.

The Senate **MUST** provide at least **\$5 BILLION** in additional funding for **CONSERVATION PROGRAMS** to meet farmer demand and keep existing programs in operation. The House provided nearly that much, but did not adequately fund all conservation programs.

Polls show the public overwhelmingly supports conservation funding, and the environment needs it.

THE SENATE NEEDS TO DO BETTER.
